

The logo for SQS Security Qube System. It features the letters 'SQS' in a bold, blue, sans-serif font. A small purple square is positioned between the 'Q' and the 'S'. Below the letters, the text 'Security Qube System®' is written in a smaller, black, sans-serif font.

**SQS**

Security Qube System®

The logo for Q-Case Maxi. It features a stylized 'Q' in blue with a purple square inside it, followed by the text '-Case™ Maxi' in a large, white, sans-serif font.

**Q-Case™ Maxi**

WHEREVER CASH MOVES

## THE SQS QUBE

Our symbol inspires total security. Like a phalanx from ancient times, its four, intact sides provide perfect control so that no one ever gets in without permission.

# Q-Case™ Maxi

Product No. 114170

Together with leading CIT companies and ergonomics experts, we have developed the Q-Case™ Maxi based on several patented technology solutions. It is today's most advanced security case made of carbon fibre composite, extremely lightweight alloys and high-grade polymers, resulting in market-leading load capacity in relation to its own weight. We have created a case that takes as little space as possible. Its top-loading, ergonomic design provides a very small footprint and this lightweight case is designed to minimise user effort.

Our proprietary electronic key system provides the highest available level of security, and the same key system is used for all models. In a unique way, Q-Case™ Maxi can protect and transport up to 8 000 banknotes, or the equivalent in ATM cassettes from most of the market's ATM suppliers.

- Market-leading combination of light weight and high load capacity.
- Superior security through SQS Security Qube System's patented ultra-fast cash staining solution.
- Banknotes can be loaded and unloaded while still in a rack (increases ergonomics and speeds up the handling in the cash depot).
- Top loaded compact design and low weight distribution for best possible ergonomics and rotary hatch operations.
- Smallest footprint on the market – minimal requirement for floor and table space in small rooms/vehicles.

#### DIMENSIONS (mm)

External: Width: 369 Height: 550,6

Height with Handle: 640

Depth: 204

#### DIMENSIONS (kg)

Empty: 9.5

#### TEMPERATURE RANGE (°C)

Operating: -26 to +65

#### SERVICE INTERVAL

2 years

#### CAPACITY BANKNOTES

Bulk cash, up to 8 000 unused banknotes in a plastic seal bag.  
Size of banknote package,  
Height: 400mm  
Width: 305mm  
Depth: 82mm

#### CAPACITY ATM-CASSETTES

Product can transport one of the following ATM-cassettes

- Wincor Nixdorf NG\*
- Wincor Nixdorf V4\*
- Diebold Opteva currency dispense cassette\*\*
- Diebold ix/i currency dispense cassette
- NCR Currency Cassette
- Talaris NMD 100
- Talaris NMD 50

\*Requires Cassette lid NGV4 MP, item no. 111575

\*\*Requires minor modifications to cassette lid

## IN GOOD COMPANY

Since 2008, SQS Security Qube System has been wholly owned by the PSI Group ASA. A leading international provider of advanced technological solutions for securing cash through our brands SQS Security Qube System®, CashGuard™ and Vensafe and a major supplier of retail technology to the Scandinavian market. SQS Security Qube System is part of the PSI Technology division, whose goal is to provide intelligent solutions for the CIT, bank and retail industries all over the world.

## WHEREVER CASH MOVES

The best way to protect is  
to never let the theft occur.
