

# Q-Case™ Mini

WHEREVER CASH MOVES

## THE SQS QUBE

Our symbol inspires total security. Like a phalanx from ancient times, its four, intact sides provide perfect control so that no one ever gets in without permission.

# Q-Case™ Mini

Product No. 113900

Together with leading CIT companies and ergonomics experts, we have developed the Q-Case™ Mini based on several patented technology solutions. The case is extremely small and convenient, without making any compromises on security. This advanced security case is a market leader when it comes to its combination of light weight and high load capacity. Its top-loading ergonomic design provides the market's smallest footprint. Our proprietary electronic key system provides the highest available level of security, and the same key system is used for all models. Q-Case™ Mini has been specially developed for customers where light weight and compact design are essential.

- Market-leading combination of light weight and high load capacity.
- Superior security through SQS Security Qube System's patented ultra-fast cash staining solution.
- Banknotes can be loaded and unloaded while still in a rack (increases ergonomics and speeds up the handling in the cash depot).
- Top loaded compact design and low weight distribution for best possible ergonomics and rotary hatch operations.
- Smallest footprint on the market – minimal requirement for floor and table space in small rooms/vehicles.

#### DIMENSIONS (mm)

External: Width: 369 Height: 385

Height with Handle: 474

Depth: 204

#### DIMENSIONS (kg)

Empty: 7.5

#### TEMPERATURE RANGE (°C)

Operating: -26 to +65

#### SERVICE INTERVAL

2 years

#### CAPACITY BANKNOTES

Up to 5 000 unused banknotes in a plastic seal bag.  
Max size of package,  
Height: 250mm  
Width: 305mm  
Depth: 100mm

## IN GOOD COMPANY

Since 2008, SQS Security Qube System has been wholly owned by the PSI Group ASA. A leading international provider of advanced technological solutions for securing cash through our brands SQS Security Qube System®, CashGuard™ and Vensafe and a major supplier of retail technology to the Scandinavian market. SQS Security Qube System is part of the PSI Technology division, whose goal is to provide intelligent solutions for the CIT, bank and retail industries all over the world.

## WHEREVER CASH MOVES

The best way to protect is  
to never let the theft occur.
